COLEMAN, ALTA.

R. Yeliga Wins Neimeyer Trophy

The annual Harry Neimeyer Trophy Shoot was held recently by the C.N.P. Rifle and Gun Club on the Blaimore Rifle Range.

Twelve sharpshooters entered the competition with Rudy Yeliga and Gordon Cooper of Fort Macleod tying up the score. In a 25 round shoot off Rudy emerged as the winner with a score of 23 marks out of a possible 25. Mr. Cooper scored 21 points.

Mrs. Neimeyer presented the trophy.

Twenty marksmen entered the shoot. Those successful in the ham events were: R. Yeliga, A. Gettman, (2 Hams) G. Cooper, Fort Macleod, H. Scott, Cardston, (2 Hams) and Paul Fiewich.

The scores in the Neimeyer Trophy were as follows:

	Total
1. R. Vanoni	23 - 19 42
2. H. Morency	20 22 42
3. J. Yeliga	20 - 20 40
4. J. Caruso	22 - 20 42
5. B. Slopek	16 - 17 33
6. F. Cationi	16 - 17 33
7. P. Fiewich	23 - 16 39
8. R. Yeliga	22 - 22 44
9. H. Scott	23 - 19 42
10. G. Cooper	21 - 23 44
11. F. Sloan	19 - 18 37

United Church to Hold Social Evening

A social evening will be held in the United Church club room on Friday, August 24th, at 7:30 p.m., for the purpose of showing appreciation to all who kindly donated towards the Dryer for the McAuley triplets.

Donations will still be accepted towards the dryer and anyone contemplating in bringing gifts for the baby shower are welcome. Donations can be left at the Red & White Store.

Singing, a skit and movies will make up the program. Refreshments will be served.

Ghost Town Comes To Life

GRAND FORKS, B.C. (CP) — The ghost town of Phoenix, 14 miles northeast of here, will come to life again next year with the reopening of the Phoenix Mine which closed in 1919 after producing 285,000 pounds of copper.

L. T. Postle, president of Granby Consolidated Mining, Smelting and Power Company, announced that Phoenix Mine will reopen on a year-round basis early in 1957.

The mine closed in 1919, partly because a prolonged strike of coal miners in the Crow's Nest area cut off essential coke supplies, and also because of a drop in the price of copper.

Later, the stores, railroad station and tracks and school were torn up and Phoenix became only a memory.

"We plan to build a concentrator to treat 500 tons of ore daily near the old Phoenix Mine," said Mr. Postle, "and we expect to extract the remaining ore by open pit method."

About 40 men will be employed when the operation is at its peak. The mill will work around the clock, with mining operations being conducted eight hours a day, five days a week.

After concentration the copper will be shipped to smelters at Tacoma, Wash. Trucks will carry the ore to a railway.

Ore reserves at a 500-ton per day rate will last about 10 years, it is estimated, and it is possible that more ore will be discovered.

Be a Courteous Driver.

Pass Gardens Riddled By Fierce Hail Storm

One of the worst storms of the season belted Crow's Nest Pass flower and vegetable gardens to a pulp here Thursday afternoon. Being one of the worst electrical storms here for some time combined with a cloudburst intermingled with a heavy fall of hail, the storm lashed out at the Pass and within a half hour duration the storm dropped temperatures from a warm 80 above to a cool 42 degrees above zero.

In the half hour the storm lashed gardens were flattened and lawns turned white with a blanket of hail stones.

Storm drainage ditches in town were filled to capacity and small streams were running down streets in town.

Unusual about the storm is the fact that all during the heavy downpour the lightning and thunder continued. Although most gardens in the area were ruined by the heavy storm no other property damage was reported. Electrical power was knocked out for a short time but was soon restored.

The storm is reported by many to be one of the worst storms seen in this area during the month of August for many years.

Pass Old-timer Laid To Rest

Funeral services for James R. Warner, an oldtimer of the Crow's Nest Pass district, were held in Martin Bros. chapel in Lethbridge, Rev. Canon L. L. Grant officiated. Pallbearers were F. Berghorson, H. Chambers, J. Harris, E. Keith, E. Kovacs and B. Towle. Burial was in Mountain View cemetery.

Mr. Warner, who passed away at the home of his granddaughter here, was born in Herring Neck, Newfoundland and came west to Fernie, B.C. with his wife and family in 1907. Three years later he moved to Blaimore where he resided until his wife, Annie, passed away in 1947. He was employed as a carpenter and later as caretaker of the Blaimore school for 27 years.

Upon retirement he moved to Vancouver, B.C. to reside with a daughter and later to Lethbridge to stay with a granddaughter, Mrs. William Towle, 216-23rd St. He was a member of the Orange Lodge, I.O.O.F. and B.P.O.E.

He is survived by daughters Mrs. Violet Houghton of Vancouver, and Mrs. Florence McDonald of Ladysmith, four grandchildren and three great-grandchildren.

Dieppe Vets To Remember At Annual Meeting

Dieppe will be relieved for hundreds of Albertans Aug. 18 when the 14th anniversary of that costly but valuable action is commemorated during the 50/14 Veteran's Association annual dinner.

Almost 200 members of Calgary's 14th Armored Regiment were killed in the Dieppe action of Aug. 19, 1942, when 5,000 Canadian troops stormed the fortified French town and sustained heavy casualties. Although the operation lasted only a few hours, the toll of Canadians dead, wounded and missing reached 3,500.

TWO FIRST

In the attack the 14th Armored (Calgary Tanks) became the first Alberta Regiment to see action in the Second Great War, and the first armored regiment ever used under the British High Command to land tanks on a hostile beach. Many survivors of that beachhead action will be on hand next week at the 50/14 reunion gathering.

The 50/14 is an association of veterans from both the 14th of the recent great war and the 50th Battalion in the first major conflict. Other famous actions to be recalled at the reunion are Sicily, Vito Ridge, Florence and Anheim.

Major Dr. L. G. Alexander, who fought with the 50th as a machine gunner at Vimy and was a medical officer with the 14th at Dieppe will be the guest of honor.

The reunion is slated to start at 6:30 p.m. Aug. 18 at the Palliser Hotel. Major W. H. Baker, president of the association will be master of ceremonies.

● Some idea of the labor involved in putting on a tire is shown above with Slim Haines and S. Rieberger watching the dragline lift the half ton tire into place during assembly of the Creston Sawmills electric log stacker last week. Dragline operator Simister neatly lifted the wheel onto the 45 ton machine. —Staff Photo.

Two Nominated for Coleman School Board

Two nominations have been received to fill the vacancy on the School Board created when Tetz Kitagutchi resigned to take a position at Milk River.

Joseph Hanrahan and John L. Owen were nominated on Monday to fill the vacancy.

Election for this vacancy will take place on Monday, August 27th at the Town Hall where a polling booth will be open for casting of ballots from 10 a.m. until 7 p.m.

Mr. J. Parks is the Returning Officer.

J. H. HANRAHAN—A property owner in the Town of Coleman, father of three school-aged children, employed by the Department of Highways, a supporter of the Government, chairman of the Civil Service Association of Alberta, Branch No. 9, an affiliated member of Alberta Federation of Labor and a strong supporter of the Labor Movement, also a member of the R.C.A.F., World War II.

JOHN LESLIE OWEN—Coleman Merchant for the past 10 years, member of Board of Trade, was School Trustee at the Olin Creek School, Cowley, for five years, also served as Councillor on the Livingstone Council Division No. 5, for four years.

Local Girl In Blaimore Given Shower

The Ukrainian hall was the scene of a lovely shower recently in honor of Miss Patricia Stelmachovich.

Entering the hall with her mother the honor guest was presented with a beautiful corsage by Miss Dolores Iwakivi. They were then escorted to a place of honor at the head table.

Whist and bingo were played with honors for the whist going to first, Mrs. Oswald, second, Mrs. W. Holyk and consolation, Mrs. V. Proce.

Following a delicious lunch served by the hostesses a host of lovely gifts were presented. She received a chrome kitchen suite, a dinner set and numerous miscellaneous gifts. The hostess gift was a set of aluminum pots and pans and a set of silverware.

The bride-elect then ably thanked all those present and those unable to attend for the lovely array of gifts.

STAIN PROOF FABRIC

Printed cotton fabrics soon to be available in Britain, says the Financial Post, are said to be stain and water repellent, crease resistant and need a minimum of ironing. When ink, or other stains such as sauce, are spilled on the new material, water poured on immediately afterward removes all trace of the stain and leaves the cloth quite dry to touch. Guaranteed for 20 launderings, the fabrics will be available in a large range of designs and colors. Makers claim it's the first time all specific properties of the finish have been available in printed cottons.

District Pioneer Called By Death

One of the pioneers of Southern Alberta, Wallace Thurston "Wall" Eddy, 93, of Burmis, died in St. Vincent's Hospital in Pincher Creek Saturday morning.

Mr. Eddy was born in Coburn, Ontario, and came west to Alberta, settling in the Fort Macleod area in 1883. While in Macleod, Mr. Eddy worked on the original Northwest Mounted Police barracks there. He also celebrated his 21st birthday in Macleod. Later he moved to the Pincher Creek district and worked on a number of ranches, after which he lived in Cowley and Lundbreck where he operated a butcher shop. Prior to entering hospital Mr. Eddy had lived at Burmis for the past seven years with a nephew, James Eddy. Mr. Eddy was a Conservative in politics and took an active part in campaigns, especially during the time the late John Heron ran for parliament.

Mr. Eddy was predeceased by his wife Emma in 1950. He is survived by two daughters, Hilda (Mrs. E. C. Brown of New Westminster, B.C.) and Ethel (Mrs. H. Bennett of Fort Macleod); five grandchildren and two great grandchildren.

Funeral services were held from St. Chad's Anglican Church in Lundbreck on Monday and interment was in Cowley cemetery. The Rev. Scott of Pincher Creek officiated.

Harry Pearson Passes at 47

Harry E. Pearson, 47, of Lethbridge, passed away Saturday in hospital following a brief illness.

Resident of Lethbridge for 20 years, he was born in Lancashire, England, and was a mechanic by trade.

Survivors include his widow, Prena; son, William and daughter Marlene, all of Lethbridge. Brothers, Arthur of Dawson Creek, Gordon in British Columbia, and Jack of Bow Island. Sister, Irene Shipbotham of Lethbridge, and father, Gilbert Olson of Bow Island.

Funeral services were held in Martin Bros. chapel here Tuesday at 2 p.m. Canon L. L. Grant officiating. Interment followed in Arheimount Memorial Gardens.

Mr. and Mrs. Pearson were Coleman residents before moving to Lethbridge. Mrs. Pearson was a proprietor of the Empire Coffee Shop and recently was in charge with Mr. Pearson of the Grand Union Coffee Shop.

Stavely Extends Invitation to Bingo Fans

Wednesday, August 23, Pass Bingo fans are asked to attend the Giant Bingo in the Stavely Arena. There will be \$15,000 in prizes. The bingo committee guarantees for the first 500 persons paying attendance there will be one car given as a bingo prize. For each additional five hundred attending a car will go with a maximum of five cars being offered.

The cards which are \$5.00 per person can be obtained either at Freeman's or Zaks for anyone interested.

Other prizes for the evening include a vacuum cleaner, tent and camping outfit, Lazy Boy chair, washing machine, and television 21" set.

First winner of a car has his choice of a Pontiac, Dodge, Plymouth, Ford or Chevrolet. Additional winners can have their choice of the remaining cars.

So anyone wanting to take a chance of a new car, go to Stavely on Wednesday, August 23.

KEE IT DARK

Want complete secrecy — even from the law — about your financial affairs? Then go to Lebanon, says the Financial Post, where new law forbids bankers to reveal details of client's business even to judges, allows accounts to be identified only by number with names known only to head of bank.

Remington Portable Typewriters

Mrs. C. Dunlop, R.N., Appointed Matron Of Hospital

Mrs. Constance Dunlop, R.N., wife of Chief of Police Bob Dunlop of Blaimore, has accepted the appointment of matron of the Crow's Nest Pass Municipal Hospital. Mrs. Dunlop was appointed by the C.N.P. Hospital Board at a meeting held recently to replace Miss Helen Cleims, R.N. who left to take a two-year course in hospital administration at the University of Toronto.

Mrs. Dunlop, originally from Eyemore, Alberta, graduated from the Holy Cross Hospital in Calgary in 1929 and has had varied experience in the nursing profession. She had graduated from high school at Big Valley, Alberta. She has had nursing experience at the Galt Hospital in Lethbridge and has worked in the doctor's offices of St. Michael's hospital in Lethbridge and for over nine years in Pincher Creek just prior to coming to Blaimore, when Mr. Dunlop accepted the position of chief of police. Mrs. Dunlop was employed as an X-ray technician at the Buegel and Fowler clinic in Lethbridge.

August Bride-elect Feted at Shower

Miss Shirley McCartney, formerly of Coleman was the honor guest at a lovely shower held in the Blaimore Elks Hall.

Entering the hall with her sister Mrs. M. Lunderman and future mother-in-law Mrs. Rossi, the bride-elect was presented with a corsage by Mary Kanik, Millie Yanora presented one to Mrs. Lunderman while Mrs. E. Lunderman presented one to Mrs. Rossi.

The some 130 ladies present spent the evening playing whist and bingo. Honors in whist went to *Hermine Gjeddes* while *Verna Osborne* captured the bingo prize.

A beautiful lunch was served by the hostesses after which the honor guest was presented with many beautiful gifts including a chrome kitchen suite, large mirror, set of aluminum cook ware, cedar chest, 2 rugs, a hostess chair end table and many other miscellaneous gifts.

The bride-elect very ably thanked the guests.

Shower Held For Former Colemanite

The Elks hall, Blaimore, was the scene of a shower recently in honor of Mrs. Peggy Desanuey, the former Peggy Price.

On entering the hall with her mother the bride was presented with a lovely corsage by her aunt Ethel Likinski. The bride's mother was given a corsage by Karen Haas. They were then escorted to the head table.

Whist and bingo were played with prizes being won by Mrs. J. Reid first, Mrs. G. Dewar, second and Mrs. F. McKies, consolation. Mrs. McKies also won the lucky number draw.

A delicious lunch was served by the hostesses. A host of gifts included an ironing board and cover, hostess chair, coffee pot, lamp, coffee table, towels and other miscellaneous gifts. The bride ably thanked these present for the lovely gifts.

Peggy was a former Coleman girl receiving nearly all her education here.

NEW TAX TREATY

The Canadian Government has now formally approved a revised tax treaty with the United States which extends the low 5% rate of withholding tax to Canadian subsidiaries of U.S. companies even if they are not 95% owned by the parent company, says the Ottawa correspondent of The Financial Post.

The required proportion of ownership by the parent company has been reduced very substantially, and it is not expected to be much over 50% in the revised treaty. This will remove any possible tax penalty upon the sale of a considerable bloc of shares in Canada by subsidiaries of U.S. firms. Canada will have removed the charge that this country's tax laws prevent the offering of shares in Canada.

Canadian statistics report

(A Weekly Review)

Gross National Product: Canada's gross national product rose during the first quarter of 1956 to a level equal to an annual rate of \$28.3 billion, about 6 percent above the annual average for last year and nearly 11.7 percent above last year's first-quarter level. The quarter's rise reflected mainly a further rise in the physical volume of production. The output gain was concentrated in mining, forestry, construction, transportation and other service groups; manufacturing was little changed from the last 1955 quarter.

Corporation Profits: Corporation profits hit a new first-quarter peak this year, rising to an estimated \$725,000,000 before taxes or 28 percent higher than last year. Income tax liabilities showed a smaller rise of 23 percent with the result that profits after taxes climbed an estimated 31 percent.

Housing: Construction of more new dwelling units was started and completed in the first four months this year than in 1955, both starts and completions in April adding to earlier gains. Number under construction at the end of April remained substantially above last year.

Labor Income: Estimated labor income in Canada during April was \$1,121,000,000, up \$110,000,000 over April last year, and the total for the first four months at \$4,381,000,000 was over \$400,000,000 greater than in the corresponding 1955 period. Both in April and the four months estimated income was higher for all major industrial divisions.

Manufacturing: Shipments by manufacturers were nearly 13 percent higher in value in April, close to 12 percent higher in the first four months, than last year. New orders in the month reached a higher value than shipments, increasing the value of unfilled orders.

Transportation: Railway car loadings rose again by 11 percent in the second week of June, grain continuing to contribute strongly to the increase. Urban transit systems in April had another drop in number of passengers but larger revenues.

Mining: Crude petroleum output for all Canada was 44 percent greater in this year's first quarter than in 1955 and sales of natural gas 35 percent greater.

GET A HORSE—Riders in New York City's Central Park give the horse to the driver of a three-wheeled utility car. Named the "Star", the tiny vehicle has a streamlined body of molded fiberglass and a one-cylinder German J.L.O. engine. The car has a maximum speed of 70 miles per hour, and is said to get 80 miles to the gallon. Less than three feet high, the Star is 10 feet, five inches long, 50 inches wide, and weighs only 400 pounds. The vehicle was designed for Bussan Industries Corporation.

Youthful marriages said factor in high divorce rate

Samuel G. Kling, Baltimore lawyer and author of several books on marriage, told the Maryland State Bar Association unhappy marriages are outnumbered blissful unions.

Strictly Fresh

An umbrella: that which you leave home when it doesn't look like it will, and then wish you weren't without when it does.

Now's the time when politicians are turning to their professional speech writers and asking, "What's my line?"

Two goldfish are swimming in a bowl, when one turns to the other and says, "Do you believe

In God?" "Of course," replied the other goldfish, "who do you think changes our water?"

An Iowa farmer who no longer was in the moon mood for cow juice and who thought goats' milk pretty bahhnd, tried getting milk from birds. Figure it would be cheaper that way.

On The Side: E. V. Durling

Prosperity may return to the principality of Monaco and the Monte Carlo gambling house, but the resort will probably never again achieve the elegance it had before World War I. In those days Monte Carlo's best customers were the Russian grand dukes. They came to Monaco on the most luxurious railroad train in the world, the St. Petersburg-Vienna-Cannes express. The atmosphere of this train was so aristocratic that evening dress was compulsory in the dining car.

Why do dentists insist upon standing up while working? There are dental chairs which permit dentists to sit down while in action. The use of a dental chair is said to have the possibility of adding five or more years to the dentist's professional life. Too many dentists quit before they should because their legs go back on them. Also, the use of a dental chair by the dentist will give a better break for patients with late afternoon appointments. Dentists who have been standing up all day are often not in the best of humor around four in the afternoon.

They grow 'em big in Tennessee

Sarah Bernhardt did not marry for the first time until she was 29 years old. . . . How large can a human being grow? So far the largest man known to medical historians was Miles Darden of Tennessee. Darden was seven feet six inches in height and weighed 871 pounds.

No credit, no cash

G. B. Shaw did not benefit financially from the operetta, "The Cuckoo's Nest," inspired by his play, "Arms and the Man". The musical was written without consulting him. He demanded that his name not be used in connection with it or any of his dialogue be used. He was offered royalties by the producers but refused to accept them.

Intelligence defined

I am asked to define intelligence. I would say intelligence is the ability to get the most out of what you know. An educated man is not necessarily an intelligent man. All of us are acquainted with stupid college graduates. As a class, the most intelligent men are mechanics.

Turf talk

"Heady Eddie" Arvato, the scintillating Cincinnati, is rated North America's greatest jockey. He has been riding 25 years, is 40 years old, five feet three, weighs 112, has a beautiful blonde wife, a daughter, 14, a son, 12; several Cadillac, a few station wagons, a Long Island mansion, 250 neckties, 80 pairs of shoes and 40 suits of clothes. The confidence of New York race goers in his ability is reflected in the saying frequently heard at the track: "Bet Arvato, so you can come tomorrow."

Now it can be told

Subject of a recent prize letter competition was "How I Hooked My Husband". Many wives entered the competition and wrote with apparent pride and enthusiasm about the manner in which they hooked their husbands. Some of the methods used were most revealing. How right that man who said: "The world is full of women and the women full of wile."

Lady bosses on the increase

Ever work for a woman boss? How did you like it? The number of feminine executives continues to increase. In the U.S. there are now over a million women executives who are telling men what to do. Not only are there innumerable feminine bank officials and office managers but there are even forewomen of construction gangs! Get it right.

The Pattern Shop

NO TRACING

Just iron on jigsaw patterns to your wood

If you want to avoid the tedious task of tracing intricate jigsaw cut-outs this is the type of pattern to use. All you have to do is to lay the pattern on the wood and go over it with a warm iron. The transfer of the picture to the wood is so perfect it looks like the artist

who made the pattern had worked directly on your material. Besides the parrot shown in the above sketch there is an owl, crow, blue jay, woodpecker, robin, oriole, bluebird, goldfinch, and Kentucky cardinal. All are life-size and the directions with the pattern include 25 formulas for mixing the exact colors and shades from three tubes of paint. Ask for pattern No. 109 and enclose 75c with name and address.

Making plans descend 20,000 feet under sea

Jacques Picard of Switzerland, who has been 10,335 feet underwater in his bathyscaphe diving craft, is making plans to descend to the Gulf of Mexico.

Picard has conferred with the Oceanography Department of Texas A. & M. College on plans for the dive if he is able to bring the bathyscaphe to this country.

He said that a dive of 20,000 feet into the ocean depths is possible with his "Trieste" diving craft. The 100-ton bathyscaphe is 16 yards long and has accommodations for two passengers seated in a chamber seven feet in diameter.

In 1953 Picard and his father, Dr. August Picard, made a record dive of 10,335 feet in the "Trieste", but the French navy descended 13,000 feet in 1954 in another bathyscaphe Jacques Picard designed for the present world record.

Two motor-driven propellers are used to turn the craft during the descent and lighting is concentrated in a small ocean area to give maximum visibility for thorough observations.

Trying to standardize traffic control devices

The first major step toward standardization of traffic control devices across Canada has been taken by the Canadian Good Roads Association in collaboration with the Canadian Section of the Institute of Traffic Engineers and numerous governments and national organizations. The Canadian manual is scheduled for publication by the end of 1957.

The first meeting of the Joint Committee on Uniform Traffic Control Devices for Canada was held May 7 in Winnipeg. It was convened by Hon. Antonio Talbot, President of CGRA, on the recommendation of the CGRA Committee on Technical Information and the Traffic Committee.

The meeting was attended by representatives of federal, provincial and municipal governments and national agencies with an interest and concern in standardizing traffic control devices. The manual was welcomed as essential to the convenience, economy and safety of highway transportation.

Fashions

Sew-simple!

by Anne Adams

Just TWO main pattern parts plus facings—what could be easier to sew! We know this cool summer dress just couldn't be more flattering—those sheath-like lines are pure magic for your figure. The boat neckline is big fashion news this season too!

Pattern 4609: Misses' Sizes 10, 12, 14, 16, 18. Size 18 takes 3 yards 39-inch fabric.

This pattern easy to use, simple to sew, is tested for fit. Has complete illustrated instructions.

Send thirty-five cents (35c) in coins (stamps cannot be accepted) for this pattern. Write plainly: Size, Name, Address and Style Number and send orders to:

Anne Adams Pattern Dept., Department P.P.L., 60 Front Street W., Toronto.

Be sure to write plainly your Name, Address and Pattern Number.

Quick Canadian Quiz

- Who is the only Canadian ever to win the United States amateur golf championship?
- Canada's gross national product in 1955 was \$26.6 billion. What was the value of Canada's exports in the year?
- What part of Canada was once known as New Caledonia?
- What proportion of working Canadians are eligible for federal unemployment insurance benefits?
- In 1955 which was greater, the total personal savings of Canadians or the amount they paid in taxation?

ANSWERS TO QUICK QUIZ

5. Taxes totalled over \$7 billion, personal savings \$1.4 billion. 3. The Pacific coast area. 1. Sandy Somerville, at Baltimore in 1932.
4. About 60 percent. 2. Exports totalled \$1.3 billion, about one-sixth of all production.

Material prepared by the editors of Quick Canadian Facts, the pocket annual of facts about Canada.

PURDAH ABOLISHED

Purdah, Moslem custom of secluding women, was abolished in the kingdom of Nepal, situated on the southern slope of the Himalayas, in 1945.

GEMS OF THOUGHT

QUALITIES OF CHILDHOOD
Children generally have to be idle. All the care then should be, that their busy humor should be constantly employed in something that is of use to them.

—John Locke.

Pretty much all the honest truth-telling there is in the world is done by children. —Thorstein.

Children never put off until tomorrow that which will keep them out of bed tonight.

—Glen Preston Burns.

I love these little people; and it is not a slight thing, when they, who are so fresh from God, love us. —Dickens.

Children not mistaught, naturally love God; for they are pure-minded, affectionate, and generally brave. —Mary Baker Eddy.

The word good said to a child is always understood, and no one explains it to him. —Joseph Joubert.

EAT ANYTHING WITH FALSE TEETH

If you have trouble with plates that slip, rock and cause sore gums—try Brimms Plast-Liner. One application makes plates fit snugly in your mouth. It relieves and reds loose plates in a way no powder or paste can do. Even on old rubber plates you get good results in minutes to a year or longer. YOU CAN EAT ANYTHING! Simply lay soft strips of Plast-Liner on troublesome upper or lower. Bite and it molds perfectly. Easy to use, tasteless, odorless, harmless to you and your plates. Removable as directed. Plate denture included. Money back if not completely satisfied.

Available at all Drug Counters. WILDOOT LTD., PORT ERE, ONT.

BRIMMS PLAST-LINER THE REMOVABLE DENTURE LINER

TRY AND STOP ME!

By BENNETT CARR

Pecos Pete, the most frugal Texan in the panhandle, spied a duck idling in the reeds one morning and took a shot at it, but the duck dived so fast he missed it. Two more shots were soon wasted. Then Pete filled his pipe and blew out some smoke. The duck, thinking it was gun smoke, dove again. This gave Pete inspiration. He smoked eight pipefuls, and on the ninth, the duck failed to come up. It had drowned!

The psychiatrist nodded understandingly, and said to the lady consulting him for the first time, "Has it ever occurred to you that this eccentricity you have noticed in your son might be just a matter of heredity?"

The lady rose angrily to her feet. "Doctor," she said, "I want you to understand that there has never been the slightest trace of heridity in our family!"

"Goodness gracious!" exclaimed Mrs. Periwinkle to a fellow officer of the temperance society, "this time they really have gone too far! They're distilling whisky for children!" As proof, she waved aloft an ad whose headline boasted, "The best 12-year-old whisky in the world!"

"Hey, Mom," wailed little Jeffrey. "I just knocked over that big ladder outside the door."

"Don't tell me," said his mother. "Tell your father. He'll pick it up for you."

"He can't," answered jittery El Jeff. "Pop's hanging from the third story window!"

When two famous veterans of the theatre were very, very much younger than they are today—much less careful of what and how much they imbibed—they turned together in a popular show. Everybody else connected with that tour who still lives to tell the tale is still astounded by some of the troubles and crazy mishaps that befell the troupe.

One evening another star could remember the lines at all and about the only voice the audience heard was that of the frantic prompter-off-stage. For one poignant scene he had to repeat a speech six times. The lady star finally told him imperiously, while the audience watched spellbound, "We hear you perfectly, young man. But you have neglected to tell us whose lines these are!"

NEED PLENTY SLEEP

Children need lots of sleep, the amount varying with the age. From two to three, 13 hours; from three to four, 12 hours and from four to six, 11 hours. These approximate times are averages. The daily afternoon rest should be maintained to the age of six. It is best to allow this rest to finish in time for the youngster to have a short period of outdoor play before his evening meal.

If a modern car were produced by methods used in 1908, it would cost more than \$25,000.

Busiest blind man I know

(By R. V. RUDOLPH, Field Secretary, C.N.I.B.)

Genial Jack McPherson, who has for the past 15 years operated the Canadian National Institute for the Blind canteen in the Wheat Pool Building in Regina, is one of the most active and happy blind persons one would ever hope to meet. Jack lost his sight in a playground accident at Fillmore, Saskatchewan, his home town, in his early teens, and was forced to complete his education at the Ontario School for the Blind.

He has not only had to win his battle with blindness, but later also had to battle back to health when tuberculosis struck him down. Since his recovery, Jack has taken his place in the community as a happy, active, useful citizen.

His accomplishments are more varied than those of many of his sighted compatriots. His fine singing voice has long been a keenly enjoyed part of many social gatherings, and an inspiration in his solos for the services at Westminster United Church in Regina. At one time Jack had his own radio program, known as "Jack of All Songs".

He takes an active part in the program of the Amicus Social Club of the Blind in Regina, and is one of the ardent participants in the Regina Lions Blind Bowlers League. Among his other recreational activities are swimming, public speaking, and cribbage and he is an ardent booster of the Saskatchewan Roughriders. For several years he has competed in the Canadian Blind Golfers' tournament in Eastern Canada and has given a good account of himself, in competing against other sightless sportsmen from across the nation.

He takes an interest in all community activities and is an active and valued member of the Regina Y.M.C.A. He is interested in the Y.M.C.A. and his piano-recording and singing voice lend much to "bean-feeds" at the Regina Y, being much enjoyed by the boys participating. The accordion is not his only bent in music, as he also plays the guitar and can sit down to the piano and accompany a song when necessary.

"Jack of all trades, master of none" is a phrase frequently heard, but despite Jack's varied activities, he gives a creditable account of himself in practically all of them. He has several times won the Canadian National Institute for the Blind public speaking trophy, competing in a province-wide contest. He has several times won the Regina Lions bowling trophy and has been a member of the bowling team which won the blind bowling championship of Western Canada, symbolized by the Chief Justice W. M. Martin trophy. He has his intermediate summer's badge which he earned in the classes for the blind conducted by the Swimming and Water Safety Branch of the Canadian Red Cross, in co-operation with the Canadian National Institute for the Blind.

His voice has been heard in the business meetings, not only of the Amicus Club, but in the meetings

LONG WALK—Blindfolded but staring death in the face, German aerialist Alex Schack walks along a high wire at Long Beach, Calif. In the background is the Municipal Auditorium, to which the wire was strung from a 15-story hotel. Schack was making a benefit appearance for the local Junior Chamber of Commerce.

SIMILAR SYMPTOMS

Like many other serious diseases, rheumatic fever usually starts with pain, fever, loss of appetite and tiredness. This may also be true of a cold but if these symptoms follow a sore throat or scarlet fever, the doctor should be consulted. If neglected, it may develop and become a serious menace to the child's health.

THE BRAIN

National serviceman Jeffrey Sidwell answered 300 questions in a 90-minute army intelligence test and got them all right. "The first time I've ever known anyone to get full marks," said the army examiner.

Icebergs are not just plain ice

On close examination, it is obvious that icebergs are not just plain ice, says a report in the Scientific American.

They are white, whereas ordinary ice in bulk is bluish. A piece of iceberg in a pail of water freezes as it melts. The reason for all this is that icebergs are shot through with tiny air bubbles under pressure.

Three oceanographers who have studied the matter believe that the air was trapped when the ice was originally formed by compression of snow. They have been analyzing the air as samples of the atmosphere prevailing at the time.

P. F. Scholander John W. Kanwisher and D. C. Nutt, members of an arctic expedition from the Woods Hole Oceanographic Institution in 1954, examined samples from six icebergs. In four the oxygen content was the same as in

More males

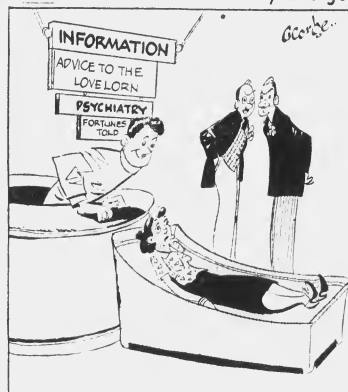

Males outnumbered females in Canada's population in the last census by 1,088,873 to 6,920,860 or slightly more than 102 to 100, Quebec being the only province with more females than males. The male excess was in the rural population, females outnumbering males in the urban population by 1,000 to 958. Windsor alone of the 10 largest cities had more males than females, and only six others of the 34 cities over 30,000. These were all in Ontario—Port William, Oshawa, Port Arthur, Sarnia, Sault Ste. Marie and Sudbury.

today's atmosphere, but in the other two it was significantly lower.

The oceanographers, reporting their work in Science, suggest that the latter icebergs may have been formed during the last ice age, when there was less green vegetation on earth and less production of oxygen.

Here's the Answer

PEGGY

RIVETS

By George Sixta

The poultry industry

Canadians spend about 25 percent of their income on food and approximately seven cents of each food dollar is spent on poultry products. If the poultry industry is to gain a larger share of the consumer food dollar, attention must be given to efficiency in production, processing and merchandising and the importance of good promotional work must be recognized.

Canadians are eating more beef, pork and poultry than they did in the past. Last year the per capita consumption of poultry meat was 29.7 pounds, an increase of approximately 8 pounds since 1950. Since 1953 beef consumption has increased by about 7 pounds per person and pork has increased approximately 3 pounds during this same period. Considering this greater demand for all meats and an increase in population of about 3 percent each year it appears that there is, and should continue to be, a good outlet for Canadian meat products on the domestic market. It is a matter of competition between the various industries involved in the meat business and of course personal consumption preference as to which branch will command the majority of the consumer market.

There has been a gradual transition in the development of the poultry industry. A very few years ago poultry production was a sideline but now it is rapidly becoming a highly specialized farm enterprise. Efficient laying flocks are replacing the old casual layer and ultra-modern broiler plants in existence at the present time are indicative of the transition in the production of poultry meat.

Recent acceptance of turkeys by the Canadian consumer has been achieved by the introduction of small light weight birds and new processing and packaging techniques. This has meant a higher consumption of turkeys during holiday and so-called off-season periods. Public demand for turkeys in 1956 should be strong but the short run price outlook like that for any other poultry product in general is largely influenced by supply. Production of turkeys in 1956 will likely be higher than last year but the rapidly expanding domestic market should offset the effect this greater supply may have on price.

The numbers of broiler chickens sold to growers in Canada in 1955 were the highest on record but demand is continuing at a high level and consumption this year will probably exceed that of 1955. However, the producer will have to plan production programs to meet market requirements if the cost price relationship of 1955 is to be maintained.

Changes in merchandising and processing methods have been geared to accommodate large scale production and distribution, and today the public is beginning to enjoy a higher quality poultry product, packaged in a more convenient and attractive form than ever before. These changes, however, are accompanied by many new problems. Narrower margins of profit are forcing poultrymen to adopt the most modern production techniques and management practices, including a thorough knowledge of current market trends and conditions.

HOW TO DRIVE AT NIGHT

by CAROL LANE
WOMEN'S TRAVEL DIRECTOR
SHELL OIL COMPANY

SPECIAL GOGGLES, LENSES OR OTHER GIMMICKS
AREN'T NECESSARY FOR NIGHTTIME DRIVING—
BUT A FEW SIMPLE PRECAUTIONS ARE

HAVE YOUR HEAD AND TAIL
LIGHTS CAREFULLY CHECKED
GLASS HEADLIGHTS ARE
A HAZARD TO OTHER
MOTORISTS; DIM LIGHTS, A
DANGER TO YOU.

BE SURE YOUR CAR IS IN GOOD
WORKING ORDER, BECAUSE BURN-
ING DOWN ARE MORE DANGEROUS AT
NIGHT. BETTER CARRY A FLARE, IN-
LIGHT OR A FLARE TO LIGHT YOUR
WORK AND WARN OTHER MOTORISTS.

REMEMBER TO DRIVE MORE SLOWLY BECAUSE YOUR DISTANCE VISION ISN'T
SO GOOD. DON'T BE SPARRING WITH YOUR HEADLIGHT DIMMER. IF YOU
PRACTICE HIGHWAY ETIQUETTE AND DIM YOUR LIGHTS, CHANCES
ARE THE APPROACHING MOTORIST WILL FOLLOW SUIT.

LAST,
BUT PROBABLY MOST
IMPORTANT, BE CAREFUL
OF YOUR DISCREETION.
IT'S EASY TO LOSE YOUR WAY
AFTER DARK, WHEN HIGHWAY
SIGNS ARE HARDER TO SEE.

few minutes to arrange. It's one of the many helpful
banking services we provide.

THE CANADIAN BANK OF COMMERCE
COLEMAN BRANCH - E. D. HOWARD, Manager

Country Editor

• **Canadians:** Smoke from Simpson's order office at Tisdale, Sask., brought the brigade which found, of all things, a chicken chimney; what raised eyebrows was the chick was ready for the oven, plucked, drawn and properly tied... according to Grenfell (Sask) Sun the oft-repeated call to more diversified raising of livestock, is the real answer to years of bumper crops and poor wheat sales... Ian Schierbeck, a Rutland, B.C. Boy Scout has an uneasy ability to charm snakes, even carries them inside his shirt and collects them like other boys do marbles and such like... on the proposition that the Kelowna (B.C.) high school band make a European tour, a secret ballot among the parents of the boys was decided on to settle the matter after considerable argument and discussion... ladies of Souris, Man., heard a home recital played by Nancy Collinson on a violin made by George Kempthorne, from varnish and wood brought from Germany the back of local maple and spruce trimming, rosewood was imported from England; "the tone was soft and full and the violin a work of art" reports The Plandeleader... when polling officer Leslie Grant in York County's New Brunswick election thought that voters must have slept in Southampton, the night of May 7, date of election writ, he refused a dozen voters the right of franchise; advised, the chief returning officer Sheriff Lyons, had to make a hurried trip to Fredericton to Southampton (40 miles) to straighten matters out; the poll was kept open after the zero hour, but the voters finally got their vote... hands across the sea, as Mayor Thos. A. Aige of Enniskillen, Northern Ireland sent a cablegram of good wishes to Mayor of Enniskillen, Ontario... a recent fine discovery in New Brunswick is near Temperance Vale, of rich marble and Silica deposits... wrathful is Cobourg, Ont., Sentinel when the flakee Lodge there raising funds for Moss Park Youth Centre had hired circus, but Toronto Musician's Union demanded a minimum of 25 local musicians instead of circus band, which would raise costs tremendously; "There is no freedom in Canada when such audacious effrontery is permitted... dictatorship which is thrust upon one form of society by unions will soon control all society unless you as human beings and as individuals rise up in righteous defiance."

• **Indian Head (Sask) News:** "No Canadian of any political stripe but that can feel that at long last our own Parliament has fallen to the level which it demonstrated last week. Possibly most of us had more or less a smug view of this; other countries not ours, supplied the political circus; other regions instituted strong-arm administrative methods; other lands (notably the Lat-in ones) provided the excitable spectacle and disgraceful lack of dignity... now we know that said Canada is quite able to match some if not all of this."

• **The Newfoundland St. John's Observer's Weekly** is still miffed: "The demand has been set up for an immediate election can have no useful purpose unless the people of Canada are prepared to give their support to men of higher concepts of public service. Until that idea premeates the Canadian body politic, it will be useless to look for improvement."

• **Brooks (Alta.) Bulletin:** "They are asking why a province that can sell oil rights for \$33 million has to talk about the possibility of imposing a sales tax to increase revenue."

• **Hanna (Alta.) Herald:** "In our opinion, and express same with girls are quite capable to compete with the best athletes in the world. The thing is to find them and give them the proper training."

• **Swift Current (Sask) Sun:** "Has flag waving gone out of style? Aid. Fred Newman had an experience a few days ago that makes him think the old style of patriotism is slipping. It has been his custom, he said, to fly a flag on Dominion Day, and because the one he had was showing signs of wear, he decided to replace it. That was more difficult than he thought: He tried every store he could think of without result — none had flags in stock. He was about to give up, he said, when he got a hunch and walked into Bill Chew's Modern News. He came out with a flag — made in Japan."

• **Pembroke (Ont.) Observer:** "Changing of telephone numbers is just one of the minor annoyances sent from time to time to try us and we take them in our

stride. In this instance we shall try with what patience we can muster, to forget the old police number and plant the new one in our mind."

• **Canadians:** "Waterloo (Ont.) Chronicle tells of an American who was trying to get directions to Stratford; had already asked three, none of whom apparently spoke English. First question he asked the fourth, "Do you speak English?" He drove off mattering. "This is a h--- of a Canadian community where only one out of four speak the English language."

• **Chief Hampton of Gananoque, Ont.,** was parked out in an adjoining car; he merely picked a small hand pyrene out of his own car and doused the flames, just like that; that's really johnny-on-the-spot... according to the Assiniboia (Sask) Times Wilfred Ellett, farmer near town befriended a hawk which always perches on his tractor, making the rounds, diving for mice, an edible tid-bit; one day, he swears to the truth of this, he was delayed coming back to the tractor after his dinner hour and when he returned the hawk had been annoyed waiting for his own meal that he had started the tractor by himself, was making the rounds and diving off for mice... Wainwright (Alta.) Star-Chronicle observation on Father's Day: "The unfortunate part is that even after father has done his best, the wife and children will still be quite convinced that he is a dear old thing — but still needs a little mature help in making his decisions."

When Alvin Shantz, who delivers mail to No. 1 rural route out of Waterloo, Ont., opened the box at Matzger farm, a startling flew out and into his face, causing severe bruises... A five column heading on front page of "Grimsbey (Ont.) Independent, "Grimsbey's Baby Industry Has Marvellous Growth"; but it referred, actually to an ornamental garden fixture industry in town, as folks found out reading the story... Mrs. Ester Lavigne of Bathurst, NB told the Northern Light why she is afraid of rats in old dump ground; she has had her front door gnawed by rodents and kitchen floor partially destroyed... Kelowna, BC school board says it does not plan to take any action on request of BC Federation of Agriculture that use of margarine be banned in home economic class.

• **Bowmanville (Ont.) Canadian Statesman** notes that "Government grants aren't manna from Heaven. They're money out of your pocket and mine."

• **Estevan (Sask) Mercury:** "There should be a point where wage levels reach that could be termed an equitable basis among all wage earners and at which a halt could be called to all the hopping around, during which one group gets ahead of another."

• **The housewife** who balances her household budget, and keeps it in balance year after year while studying all the needs of the family oftentimes has a much better understanding of sound financial principles than even some ministers of finance. (Kings County Record, Sussex, NB.)

• "We talk about spending hundreds of millions on health schemes; but perhaps it would be more sensible to start building better health right in our schools by better athletic coaching" says the Springhill, NS, Record.

• **Yorkton (Sask) Enterprise** on parity prices: "Parity prices won't do what farmers believe they will — that is, give them a high and stable income. In the first place, farm income is the product not only of price but of quantity of commodities produced and sold... It is economic common sense that high guaranteed prices inhibit both the search for efficiency and the sale of the product."

• **Cranbrook (BC) Courier:** "At present all the doctors in the country are working to the limit of their capacity. Would they be able to serve any more patients under a plan that required them to spend valuable time making reports to the government on every move they made?"

• **Kentville (NS) Advertiser:** So long as people are determined to mind their own business and let offenders get away with their offences, the total of highway deaths, injuries and property damage will continue at a high level."

• **Camrose (Alta.) Canadian on the Fowler Commission:** "If the government wanted to learn what the people really thought of the CBC and its programs, a listening survey could be made by reliable independent organizations. The results could be very revealing. The CBC is not all bad, of course, but it happens to be in a position where it does not have to lend a listening ear to public opinion... and that is not good."

when the peddler selling printing supplies solicits your business, there are a few questions which he should be willing to answer to your satisfaction:

1. Does he pay taxes in this community?
2. Can he supply your order on short notice?
3. Does he donate space in the newspaper to your local community enterprises?
4. Does he pay wages to a force of employees located in Coleman?
5. Does his newspaper donate its space toward the betterment and upbuilding of this community?
6. Does he grant you every favor that you would ordinarily ask your local newspaper?
7. Does the quality of his merchandise stand inspection?
8. Does his price include sales tax, postage and insurance charges?

If he can answer ALL the above questions in the affirmative, he has an equal right to your business.

IF NOT — CONSULT

Advertising...

Modern advertising is a necessity to hold and build business. Be proud of your business, of the goods you have to sell, of the services you have to offer in your particular line. Show the progressive spirit and the desire to serve by advertising. Do not hide your light under a bushel — proclaim far and wide who you are and what you have to sell and where your place of business is, for public memory is short, and advertising is a powerful aid to all types of businesses. Moreover, people as a general rule shop where they are invited.

KUBIK — MENDYK

A pretty wedding was held at St. Anne's Catholic Church in Blairmore on July 28th when Dolores Veronics, only daughter of Mrs. Frances Kubik and the late Martin Kubik, was wed to Lucien Mendyk, son of Stephanie Mendyk. Rev. Dean A. Anderson of Blairmore officiated at the double ring ceremony. Mrs. L. D. Huntley presided at the organ and Mrs. L. L. Morgan was soloist.

Orchid Centered Bouquet

The bride was escorted to the altar by her godfather, William Brennan of Chicago. The bride wore a full-length gown of lace with net over taffeta. Her full length veil flowed from a headpiece studded with rhinestones and she carried a colonial bouquet of summer flowers surrounding a mauve orchid.

Bridesmaids were Eugenia Stelmahovich of Coleman, Frances Amatto of Blairmore, Sheila Vaughn of Creston and Patty Moore of Coleman, all who wore matching ballerina-length gowns in the green, pink, yellow and blue respectively, and carried bouquets of summer flowers.

Little flower girl Kay Krywolt of Coleman, wore a yellow ballerina-length gown. Ring bearer was Ronnie Kubik, a brother of the bride.

The groom was supported by Roman Bedak of Bellevue while the attendants were Martin Kubik, brother of the bride, Martin Galvon of Calgary, and Gino Arcadia of Blairmore.

After the service Dolores proceeded to the statue of the Blessed Virgin Mary where she laid her wedding bouquet.

A supper was held at the Turtle Mountain Playgrounds at Frank where well over 60 guests attended. The head table was centred with a lovely three-tiered wedding cake and flanked by lighted tapers and bouquets of flowers. A toast to the bride was proposed by Dean Anderson and was responded to by the groom. Following the supper dancing was enjoyed with music supplied by Kopak's orchestra from Lethbridge.

For her daughter's wedding Mrs. Kubik wore a blue lace dress with white accessories and a pink carnation corsage, while Mrs. Mendyk, mother of the groom, wore a grey crepe dress with matching brown and grey accessories and a pink carnation corsage.

The young couple will leave the Pass in the middle of August to spend a two-week honeymoon visiting in Chicago, Illinois.

Out of town guests included William J. Brennan of Chicago, Eugenia Czerny of Toronto, a sister of the groom, besides guests from Pincher Creek, Tod Creek, Creston and Calgary.

THE WEST OUT OF TUNE?

The mere fact of change, writes J. B. McGeachy in an article on foreign affairs in the Financial Post, puts the West at a disadvantage. The Russians are in tune with the 20th century turmoil. They caused it, to a large extent, they are the exponents of a revolution that has been pretty successful in its 39 years of life to date. In sharp contrast the Western countries are out of tune. We are against fundamental change. We like the status quo because it has been kind to us, supplying us with wealth unknown to the

mass of humanity.

This is why the Western action in world affairs often appears to be (and usually is) designed to shore up things as they are. Instead of initiating policies, we seem to be merely reacting (and in a hostile manner) to initiative shown by others. While the Russians go about preaching inevitable revolution and a brave new world, we seem to say: "Everything would be lovely if only those dreadful Russians could be stopped."

HINT TO PHILANTHROPISTS

A report from the American Foundation, New York, corrects the cheerful belief, says the Financial Post, that modern medical science is knocking out diseases one by one like ninjamen by discovering new wonder drugs and diagnostic devices. There has been no such chain-reacting series of miracles.

The report stresses the need for more pure basic knowledge. The with some success but they don't know how it starts. They don't know why some people are susceptible to rheumatism, whether alcoholism is chiefly mental or physical and what causes hypertension. They don't know why X-ray surveys still show tuberculosis creeping up through mankind supposedly had licked this plague.

The answer to any of these questions might be an incidental by-product of study of the fundamental nature of living tissue. In physics it was pure research, with no apparent practical aim, that led to nuclear fission. In medicine it may be pure biology, the study of life itself, that will solve the riddle of cancer.

Hint to philanthropists: basic medical research is in need of funds.

REPORT FROM
TIT FOR TAT?

For years food chains have been offering hardware items as premiums. Now manufacturer of new coffee-maker available throughout hardware stores is offering purchasers free instant coffee. Other hardware manufacturers are also thinking of free food giveaways to help their sales.

SEAWAY PROSPECTS

Will the St. Lawrence Seaway become a watery highway to untold Canadian prosperity? Or will it be a costly grave in which the last vestige of the country's maritime industries can come to rest?

Answering these questions in The Financial Post, E. R. Axelsson writes: "Water transportation is still the cheapest form of carrying goods from one place to another and in providing the means for vast expansion in this respect, the St. Lawrence Seaway will inevitably make a highly important contribution to the future prosperity of Canada. "Business, economical and industrial developments, throughout the history of civilization all over the world, have always followed close behind every improved means of communication."

"The Seaway is the newest and in many respects most impressive link between the world's richest industrial area and its far-flung markets and there is every reason to assume that history will again repeat itself."

"But it will not be rushed."

LABOUR SHORTAGE

"The nation's annual warm-weather labor shortage has arrived two months ahead of schedule, The Financial Post reports. Only 27% of the labor force is

without jobs and looking for work. June-end figures just released by the department of labor and the Dominion Bureau of Statistics show:

—Most of the more than 100 labor market areas in Canada were in balance or shortage positions at the end of June. This normally doesn't happen until the August-September seasonal peak.

Unemployment declined sharply to below the June average of the last five years, almost as low as record June, 1953.

CLEAN, QUICK CHANGE

Spare ribbon for new model typewriter comes in plastic container and need only be dropped into a special ribbon carrier slot in the machine. The Financial Post reports. Does not have to be threaded into place. No messy fingers after a quick ribbon change.

"DOWN SAFETY LANE..."

THIS WEEK'S WISE WORD TO DRIVERS

SUMMER RAIN

In a special "Safety Week" edition the Brantford Examiner borrows some advice from the police on driving in the rain:

"Say Mr. Driver, what do you do in 'new rain'? Here's what the police department says:

"Today's roads are so coated with traffic film that 'new rain' after a dry spell, makes them as slick as ice. The rain and film results in a soap slippiness which creates a serious hazard.

Here are the police hints:

1. If it is a heavy downpour, cut speed sharply for 30 minutes. It takes 30 minutes for heavy rain to wash the traffic film off the road.

2. A light rain doesn't take the film away so fast, and the roads are slick for a full hour.

3. A light drizzle causes skidding for two full hours."

PATTINSON HARDWARE

For Sale, in Coleman

The complete stock and all fixtures, including all display tables, show cases, counters, cash register, etc., to be sold at once.

Buildings for Sale.

The whole Building known as the Coleman Motors, Pattinson Hardware, including the Furniture Display Room and Apartment on Second Floor, or any part of the above building to be sold at once.

ON U.S. SOIL AFTER THREE-YEAR BATTLE—Mrs. Grace Li, 29-year-old stenographer, smiles after passing through immigration at Miami to enter the U.S. She has spent the past three years in Montreal trying to find some way to beat red tape and join her husband, Dr. Pei-chao Li of Columbia University. Over the years she had tried to enter the U.S. from Hong Kong, London, Paris, Amsterdam and Montreal. Mrs. Li came in from Costa Rica with help of Senator Herbert Lehman (D-N.Y.). She left her apartment in Montreal on June 9. At right is a friend, Edwin J. Weinstein.

SUMMER TIE-UP—Cool, slim and collected—that's the summer rendition of this sheath in honey beige or pepper black cotton pique. Collared in sugar white, the whole dress is tied up neatly with a checker-board four-in-hand.

CANADIAN FLAG IN LONDON—Leading Seaman William Kerr of Toronto, hoists the Canadian flag aboard HMCS St. Laurent, after berthing in the port of London. The anti-sub destroyer escort recently completed duty escorting the Royal Yacht Britannia during the Queen's state visit to Stockholm. The warship is in London for a brief visit.

ROMAN TANKS, ROMAN BOYS, ROAMIN' EYES—Curious lads in Rome, Italy, squat for a worm's eye view of some tanks gathered on the outskirts of the city for a parade in honor of the 16th anniversary of the Italian republic.

FIXED FOCUS—He sure did. What the editor said was chumpily awful when he learned that the news photographer let Detroit Zoo's "Tarzan" examine the paper's camera. Belows on the camera is in poor shape, but the belows in the office were in top condition.

ACCUSED IN AUNT'S DEATH—Richard Greenwald, 17, New York City College freshman held in the fatal shooting of his aunt, clasps handcuffed hands as he is booked on homicide charge. The youth, defying police investigating a report that he had threatened to kill his girl friend, fired a rifle bullet through the locked door of his bedroom and fatally wounded his aunt, Isabel Polensky, who was pleading with him to surrender.

The approximate cost of the Pentagon building in Washington was \$64 million.

TERRORIST LEADER SOUGHT—British authorities in Cyprus said this is a snapshot of Cypriot terrorist leader George Grivas, 58, reputed commander of the underground forces on the strife-torn island. The picture was found during recent search operations in the Troodos mountains where 19 British soldiers died in a forest fire.

HAPPY AND WELL, AGAIN—Mr. and Mrs. Stanley Friedman hold hands after her heart operation in Brooklyn hospital. Mrs. Friedman has suffered from birth with pulmonic valvular stenosis, an abnormality of the pulmonary valve to the heart that does not permit it to open fully and blocks the free flow of blood. Before the delicate operation, she was resigned to a lingering death and for two minutes and four seconds during the operation, her heart was stopped. She has left the hospital a well and normal person.

VICTIM OF HOLDUP—Mrs. Jim Higuchie comforts her 11-year-old son, Grant, as he lies in a Los Angeles hospital after being shot in the back as he witnessed a holdup. Police said the boy was working in a grocery store, sweeping floors, and was shot as a gunman fled with \$900. His condition is described as fair.

OUR COMPLETE SHORT STORY —

the strategist

—By DONALD J. MacLEOD

GLoom hung like a fog over the small room. Both Joe Winsor and his sister Anne fixed their eyes on the pale green door of their mother's room. Silently the door opened and a shadow detached itself from the doorway. Dr. Miller stood before them and shook his head.

"I'm sorry, Joe, sorry Anne. She's gone."

Anne put her face in her hands and her red hair spilled over her shoulders. Joe suddenly eyes his sister as he pulverized his cigarette. Dr. Miller put his arm around Anne.

"She didn't suffer, Anne, she went quickly. Have a good cry, you'll feel better."

"Sure, let her cry, Doc," Joe said brusquely. "She fought with Ma for years." He lit a fresh cigarette and strode from the room.

When Anne got home, Bill Carson was sprawled on the sofa like a collapsed parachute. He had his fedora pulled over his face and an unpleasant odor floated above him. Anne slumped in the easy chair. Bill shifted his hat back on his head and squinted.

"Where you been over at your old lady's again?"

Anne winced. "Please, Bill. You needn't worry about Mother bothering you again. She's dead."

Anne's voice was black coffee to his befogged brain. His blood-shot eyes raced around the room and rested on his wife.

"Dead, huh? Well, who yuh goin' to fight with now?"

"You're the only reason Mother and I quarrelled. Mother warned me but I thought if you loved me enough you'd stop drinking."

Bill fumbled to find his tie and brush the hair out of his eyes.

"Thatso," Bill said. "What a pretty speech. Let me tell yuh one thing, just one thing, I'm as good as thush Jimmy Sharpe. If I'm not why's yuh marryin' him? Just tell little Bill the answer to that one, just tell me."

Anne passed her hand across her forehead. "Bill, please, I don't feel like going over all that again. I'm going to lie down for awhile."

"Yah, go ahead. Lie down as long as yuh want. Yuh didn't save little Bill, did yuh? I'm goin' get some air..." Bill veered to the door, fumbled for the knob and carefully pulled it behind him.

Anne sighed, kicked off her pumps and slipped the flowered jersey dress over her head. She slid beneath the cool sheets and closed her eyes. The years began to march before her in review. It was away back, she couldn't have been more than 10 when Dad died and Mother started planning her life and Joe's. That was the trouble, Mother planned every detail, where they went, whom they associated with, Joe had always been mother's little white-haired boy—he never questioned his plans.

A few more years hustled past and Mother began to think that Jimmy would make a good husband. Anne liked Jimmy, it wasn't just because they'd gone to school together, it was something deeper. She had rebelled, not because he was only a grocery clerk but perhaps because mother had picked him. It seemed like yesterday she had been in the kitchen helping Mother with the dishes.

"Jimmy was wondering if you'd go roller-skating Saturday night, Anne."

"First I've heard of it, Mother. Anyway, I'm going out with Bill Carson."

"Jimmy phoned when you were out, dear. That Carson boy isn't good for you, he drinks."

"Not too much. I can arrange my own dates, Mother."

"I know, Anne, but Jimmy's such a nice boy."

Anne threw the tea towel on the

rack.

"You've said it a million times, Mother. I'm sick of hearing it. Bill loves me and I'm going to marry him."

Anne still remembered the hurt that came into her mother's eyes. After the wedding, just before they left on their honeymoon, Anne noticed a strange look in her eyes. Anne laughed uneasily.

"Don't worry, Mother, we'll be happy."

Their marriage had been a series of sessions making black coffee and bailing Bill out of jail. Bill was penitent each time, like a little boy who'd been caught stealing apples.

"It won't happen again, Anne. I promise." The laughter in his eyes was contagious.

"You always say the same thing, Bill."

"Anne..."

"Yes, Bill?"

"I love you, I love you, I love you..."

The words rolled on and on, growing fainter and fainter until they became a whisper. Anne sighed as sleep came.

Lawyer Ezra Snape adjusted his spectacles as he peered at the relatives of the late Mrs. Winsor. Anne dreaded the reading of the will, hadn't her mother caused her enough embarrassment? Anne thought the relatives looked like a bunch of vultures. Ezra's voice was droning on, "...and to my daughter, Anne. I leave my entire estate in the amount of 10,000."

Anne felt the heavy silence, Joe's surprised look and the stares of the vultures as she got up and left the room.

Even after she got home Anne couldn't believe it, neither could Bill. "If you'll stop drinking, Bill, you can have \$5,000 for yourself."

Bill beamed. "Anne, I'll do it, so help me. This time I'm serious." It was four drinks and one month later that the telephone rang.

"Mrs. Carson?"

"Yes?"

"Acme Hotel here, your husband's in our cocktail bar, he's hurt..."

"How bad, tell me..."

"He's dead, Mrs. Carson."

The room turned, twisted, then began to spin around and around. Anne swayed, tried to stand but was sucked into the vortex.

Jimmy called around later to see if he could do anything to help.

"What's the answer, Jimmy?"

Anne said.

"The answer to what, Anne?"

"To life."

Jimmy stood for a moment looking at her then put his big hand over hers. "Don't try to understand now, Anne."

It took Anne two years to find out she needed Jimmy. She smiled to herself as she nestled in his arms and felt the pressure of his lips against hers. Why but her mother could have planned such happiness?

Making progress

Millions of dollars are being spent in medical research in order to find a cure for cancer. While an infallible cure has not yet been found, much progress has been made in methods of diagnosis and treatment. Many cures have been achieved in cases where the disease has been discovered in its earliest stages. Anyone who has any symptoms which may suggest this disease would be wise to have a medical examination so that treatment may be given before the cancer becomes deeply established.

LOSE A MINUTE—SAVE A LIFE

ITCH STOPPED IN A JIFFY or money back. Very first size of soothing, cooling liquid D.D.D. Prescription positively relieves raw red itch—caused by eczema, rash, scalp irritation, chafing, insect bites, etc. Grossest, stainless, 3¢ trial bottle sent easily or money back. Don't suffer. Ask your druggist for D.D.D. MEDICATION.

Worry of FALSE TEETH Slipping or Irritating?

Don't be embarrassed by loose false teeth slipping, dropping or wobbling when you eat, talk or laugh. Just sprinkle a little FASTEETH on your false teeth. This pleasant powder gives a remarkable sense of added comfort and security by holding pieces more firmly. No gummy, gooey, gummy taste or feeling. It's all-time (non-sold). Get FASTEETH at any drug counter.

Australia's pilotless jet plane in flight

REUNITED—Sweethearts since their school days in Malta, Robert Byers, 20, now of Whitby, Ont., and Lena Bella, 19, were reunited recently when she arrived here aboard the Egyptian freighter Port Said. Byers left Malta with his parents nearly six years ago but continued to correspond with Lena and both vowed they would be wed one day. That day will arrive next month in a ceremony at Whitby.

Average woman sensible shopper who remains calm in face of fashion changes

Women prefer clothes that are blue, heads that are bare, and husbands who let them open charge accounts. And they would rather wear slacks around the house than frilly, feminine lounging outfits.

A new survey turned up these facts, plus dozens of others, which reveal the average woman as a sensible shopper who remains calm in the face of sudden fashion changes.

Some 1,500 women returned detailed questionnaires after a Fifth Avenue store decided to query a cross-section of women shoppers to discover if women aren't, after

all, pretty predictable in their likes and dislikes.

Only in their answers to one of the 35 questions did these women, who represented various sizes, income groups and occupations, show that they might deserve their reputation among men as capricious shoppers. The majority admitted they bought on impulse. They did not sit down at the start of a season and plan their wardrobes.

But the impulses are backed by basic common sense in most cases. It is more important for clothes to be becoming than ultra fashion-

able, all but 11 percent of the women agreed.

All the talk about returning to big hats and more elaborate clothes reminiscent of a half-century ago so far has passed right over the bare heads of most of the surveyed shoppers.

They like simple, semi-tailored clothes, they stated firmly. And less than half bother wearing hats of any kind. When they do, they want small hats.

Blue emerged as the most popular color, black was second and red third. Whatever the color, however, the women look for styles that have little fancy trimming and skirts that are wide enough to walk in.

The highest percentage of charge account customers came from the group of married women who did not have outside jobs. Only nine percent of the wives paid cash for their clothes. One-third of the working girls paid cash.

A wasteful note crept into the comments from special size groups, such as the very small women and the above-average sized women. The little women wrote that they wanted clothes to make them look "grown up and adult and smart." The big women wanted to look young and sophisticated.

Almost nobody, apparently, is the right size. Only a handful of the questioned shoppers said they could wear ready-made clothes without alterations. Married women who do not work outside the home have the hardest time fitting the fashions. More than half of the women in this group said they had their clothes altered before they ever left the store.

The takeoff is made by a tricycle-wheeled launching trolley, from which Jindivik is released automatically on reaching a predetermined flying speed. At the termination of the flight the aircraft is landed on a retractable skid.

The Mark II version incorporates many improvements, while the structure has been simplified considerably to reduce production man-hours to as low a figure as possible.

The wing span of the Jindivik is less than 20 feet and the length of the fuselage 22 feet.

Research data obtained from the Jindivik flights at Woomera will be used in the launching of artificial earth satellites in 1957-1958.

Australia is to co-operate with Britain and the United States in a plan to launch 12 satellites to circle the earth at 18,000 miles an hour at an altitude of several hundred miles.

It is hoped that half the satellites will be sent up from Woomera and the other half from a base in Florida.

Information vital to the development of intercontinental ballistic missiles also has been gained by the production and research expended on the Jindivik.

Funny and Otherwise

"I must say I don't think too much of your new escort," remarked one chorus girl to another.

"I don't want you to."

Said the bellboy to the noisy college party in a hotel bedroom: "I've been sent to ask you to make less noise. The gentleman in the next room can't read."

"Tell him," was the reply of one of the collegiates, "that he ought to be ashamed of himself. I could read when I was five years old."

Reclining on the beach, a woman drew her husband's attention to a girl in a two-piece bathing costume standing by the prom wall.

"Look at her," remarked the wife critically. "She must think she's Marilyn Monroe..."

The husband didn't even glance in her direction, but continued to lie back sunning himself on the sand.

"Aren't you interested?" urged his wife.

"Not particularly," was the laconic reply. "If she'd been anything like Marilyn Monroe you wouldn't have asked me to have a look."

Using heavy water as coolant

A suggestion by Britain's atomic chief that Canada specialize in the development of nuclear power reactors cooled by heavy water already has been adopted by Canada.

Sir John Cockcroft, director of Britain's Atomic Energy Research Establishment, made the suggestion at the international conference of Nobel Prize physicists at Lindau, West Germany.

Canadian research on atomic power plants is centred on the use of heavy water both as a moderator to control atomic reaction and to keep the reactor cool.

The heavy water principle is incorporated in the design of a demonstration power reactor being built jointly by Atomic Energy of Canada Ltd., Canadian General Electric and the Ontario Hydro Electric Power Commission at a cost of \$14,500,000. It will be located at Ontario Hydro's huge De Jonchins, Que., plant on the Ottawa river about 130 miles northwest of Ottawa.

W. J. Bennett, president of Atomic Energy of Canada Ltd., said recently that Canada, Britain and the United States are not duplicating efforts in the design of power reactors.

Canada was using heavy water as a moderator and a coolant, the United Kingdom was using graphite as a moderator and gas as a coolant and the U.S. was using graphite as a moderator and light water under pressure as a coolant.

He said "no one can say at this time which type or types of power reactors will prove to be the most economic." His own guess was there would be several desirable types.

However, he said "we have every confidence that our particular technology will produce a power reactor which will be competitive."

Can plane smooth scarred skin

A simple office technique for planing a pitted or scarred skin into smoothness, much as a carpenter planes a piece of wood, was described recently to members of the American Society of Plastic and Reconstructive Surgery.

The technique has shown promising results in more than 7,000 cases of facial scars caused by acne and other diseases, the society was told.

Dr. Abner Kurtin of New York said in a paper prepared for the society that the technique utilizes a stiff rotary wire brush powered by a dental motor.

He said it needs no anaesthetic other than ethyl chloride, which temporarily freezes the face, and can be performed in the doctor's office in less than an hour.

A scab forms over the abraded skin within three days following treatment. When this sloughs off in a week's time the skin is left pink, but smooth. Dr. Kurtin said, "Many severe acne cases, however, require two to four treatments which can be performed at monthly intervals. No more than four treatments for any one area are advised."

Announcement Re Change of Business

We wish to announce that we have taken over the management of JIMMIE'S COFFEE SHOP and cordially invite your business and patronage

OPEN FROM 8 a.m. to 11 p.m.

JIMMIE'S COFFEE SHOP

Mr. and Mrs. PEPPY OLIVA

Personalities IN THE NEWS

Miss Phyllis Nelson is spending her holidays with her grand-mother Mrs. J. Rushton.

Mr. and Mrs. N. Pitchford and son Darryl spent several days with Mr. and Mrs. J. M. Rushton and also Mrs. Pitchford's sister and husband Mr. and Mrs. J. Petsuk.

Mr. and Mrs. H. Urwin have returned from their holidays spent at Spokane and Lethbridge.

Attending the Canyon United Church Camp at Waterton during the summer were the following C. G. I. T. girls, Rosalie Lowe, Beverly Bond, Georgeann Pattinson, Linda Lowe, Sharlet Dunford and Judy Coover. Randy Kinnear and Weslyn Dunford attended the Explorer Camp. Carrie Horn and Gail Murdoch are attending Camp Council at Red Deer.

Mr. and Mrs. Steve Snider and family have returned to New Westminster following a visit at the home of Mrs. Snider's mother, Mrs. Tiberghien.

Rev. and Mrs. A. E. Morrison and Mr. and Mrs. W. Smith of Stettler, were in town at the week end, enroute from a holiday spent at Couer D'Alene.

Mr. and Mrs. Jim Coyle and family of Calgary, visited Mr. and Mrs. C. MacQuarrie. Mrs. Coyle is the former Miss Lily Evans who is well known here.

The next Red Cross Blood Donor Clinic will be held on Tuesday, September 4th at the C.N.P. hospital.

Mr. and Mrs. J. Montalbetti have returned after spending a holiday visiting several States in the U.S.A.

Mrs. L. Richards is visiting in Calgary the guest of her daughter and son-in-law.

Mr. and Mrs. Jack Nelson and family are spending a holiday at Couer D'Alene and Spokane.

Mr. and Mrs. J. Owen accompanied by Mr. and Mrs. R. Hewitt of Pincher Creek spent last Sunday at Boye Lake.

Mr. A. Cornez and son Raymond are visiting at New Westminster with his son and daughter. Mrs. Cornez who has been convalescing at the coast hopes to accompany them back as she is improving steadily.

Mr. J. Williams Sr., is visiting at the home of his son and daughter-in-law, Mr. and Mrs. J. Williams Jr.

Mr. and Mrs. M. Wilson of Cranbrook visited with Mr. and Mrs. E. Kroesing and Mr. and Mrs. Gerardi at the Ranger Station.

Miss Francis Sikara R.N. at the University of Alberta Hospital accompanied by Mr. and Mrs. Jerry Bleker and sons of Edmonton visited at the home of Mr. and Mrs. J. Sikara Sr. over the weekend.

Mr. Gary Joyce of Calgary, visited with Mr. and Mrs. J. Sikara over the week-end.

Mr. and Mrs. M. Killaran of Claresholm visited town last week the guests of Mrs. McGrath.

Mr. and Mrs. Tom Crowder of Seebe, Alberta visited at the home of Mr. and Mrs. G. Derbyshire.

Mrs. A. Phillips is relieving at Freeman's while Mrs. V. Thierhien is on holidays.

Mrs. J. Spievak is working at the Canadian Bank of Commerce during staff holidays.

Mr. and Mrs. G. Derbyshire left last week for a vacation to be spent in Drumheller.

Miss E. Porter of Drumheller was the guest of Mr. and Mrs. G. Derbyshire last week.

Cpl. and Mrs. Thomas Makin and three daughters of R.C.A.F. station at Penhold visited here recently, the guests of their aunt and uncle Mr. and Mrs. Dave Sudworth.

Betty Rhodes of Calgary is visiting with her grandparents Mr. and Mrs. W. Antle.

Mr. and Mrs. E. Krywolt and family are holidaying at Couer D'Alene and Spokane.

Mr. J. Szulc and Mr. J. Scroby and son Dale are visiting at Spokane.

Mr. and Mrs. E. Montalbetti are business visitors to Calgary.

Louise Ann and Ronald Crippen left Sunday for a holiday to be spent in Lethbridge with their grandmother Mrs. L. Troman.

Miss Patti Moore has left to attend business college in Edmonton. While there she will be a guest at the home of her aunt and uncle Mr. and Mrs. J. Nimcan.

Mrs. Jack Green and two children are spending an extended visit with her parents Mr. and Mrs. Ed Wood. Mr. Green is in the navy and stationed at Cornwallis, N.S.

Bob Donaldson was the lucky winner of a new car at a recent Cranbrook bingo. Mrs. Donaldson is the former Evelyn Dewar of Coleman.

Friends will be sorry to hear that Mr. Steve Bencko is a patient in an Edmonton hospital. He would be very glad to hear from his many friends in Coleman.

Bonny and Judy Szulc have returned from a visit with their aunt and uncle Mr. and Mrs. Tony Servello.

Cord of Thanks

I would like to express my sincere thanks to the hostesses, to those who donated or sent gifts and to all who helped in any way to make my shower such a success. My special thanks to Mrs. Alice Buckna, who kindly donated the corsages.

Mary Truch.

Local Boy Weds

St. Luke's Anglican Church was the scene of a pretty wedding recently when Kay, daughter of Mr. R. Davidson of Blairmore, was united in marriage with Weston, son of Mr. H. Collins of Coleman.

Reverend F. Dykes performed the ceremony while Marion Blake presided at the organ.

Entering the church on the arm of her father the bride was radiant in a strapless semi-formal gown of lace and net complemented with a matching lace bolero.

A matching cap of white net covered with pearls was worn by the bride. She carried a white prayer book centering a bouquet of roses.

Mrs. Irene Dennis of Todd Creek as matron of honor was gowned identically to the bride's only in blue. Her colonial bouquet comprised of yellow and pink roses and white stephanotis.

Mr. Ron Collins of Coleman was his brother's best man.

Following the ceremony a reception was held at the home of the bride where the rooms were fragrant with many beautiful flowers and decorated with lovely white bells. The beautifully set bride's table was centered with a 3-tiered wedding cake topped with white bride's bells.

The toast to the bride was proposed by Mr. E. C. Costick and ably responded to by the groom.

The couple left for a honeymoon to be spent in the United States. For travelling the bride donned a light green suit with white accessories and corsage of yellow rosebuds.

Out of town guests present were Mrs. B. Fisher of Dawson Creek,

sister of the bride, Mrs. Weaver of Masrath the bride's grandmother, and Mr. and Mrs. George Davey and daughter of Lethbridge, the groom's sister.

Ross - McCartney

HILLCREST — A double ring ceremony united in marriage, Shirley Louise McCartney and Pat Ross, on Saturday, August 4 at 4 p.m. in St. Theresa's Catholic Church, in Hillcrest. Father Henke read the marriage vows for the daughter of Mr. and Mrs. Henry McCartney of Calgary (formerly of Coleman) and the son of Mr. and Mrs. Dan Rossi of Hillcrest.

The wedding music was supplied by Miss Marilyn Elick at the organ and Eric Price who sang, "On this Day, O Beautiful Mother."

Mr. McCartney escorted his daughter to the altar which was decorated with flowers. Shirley was charming in a semi-formal gown of lace and net over tulle. The three tier skirt was topped with a lace bolero. A three quarter length veil misted from her matching Juliet cap. She carried a bouquet of roses complimented by a cascade of roses and streamers.

Bridesmaids were Miss Diane Guernard of Victoria, B.C. and Miss Mary Kanik of Blairmore. Miss Guernard was frocked in a semi formal gown of shrimp net with matching stole and headpiece. Miss Kanik wore a yellow semi-formal dress of net and tulle with matching bolero and head-dress. Both attendants carried colonial bouquets of carnations and peonies.

The groom was supported by Selvalio Pozza and Philip McNeil Jr. and ushers were Alexander McNeil and Ernie Luml.

A reception for 150 guests was held in the Moose Hall at 6 p.m. The hall was decorated with flowers and the 3 tiered wedding cake which centered the table, was topped by a bride and groom under a bell and fashioned with pink rosebuds.

The toast was proposed by the best man and responded to by the groom.

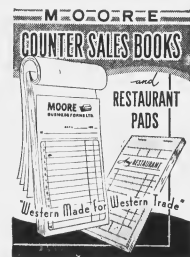

Mrs. McCartney received the guests frocked in a blue nylon dress with white accessories and pink carnation corsage. The groom's mother chose a nylon dress in floral design on a white background. Her corsage was of pink carnations.

For a honeymoon in Calgary the bride donned a turquoise box style suit with white accessories. They are making their home in Blairmore.

Guests at the wedding were from Fernie, Michel, Fand Coulee, Montana, Lethbridge, Calgary and Banff.

HEART OPERATIONS

Louder operations on the heart are now possible through use of new oxygenator or "artificial heart-lung" apparatus. The Financial Post says. Consisting of series of plastic bags used with special electric pump, it adds oxygen to the blood, removes carbon dioxide, permits heart to be bypassed entirely so that surgeons can work inside dry chambers.

The Coleman Journal

Here's what Imperial does with its money

Of every dollar Imperial Oil took in last year, more than half went to buy raw materials, such as crude oil.

Operating and administrative costs, depreciation, and the wages of Imperial's 13,500 employees took about a quarter.

Just over a tenth went in taxes, not including the road taxes in the various provinces.

Just under nine cents was Imperial's "profit" of which five cents was re-invested in the business.

So, of every dollar Imperial took in last year, just over four cents went in dividends to the company's 45,000 shareholders.
